

2021 in review

Annual Report 2021

We fight for rare kids with TBCK Syndrome.

www.tbckfoundation.org

1

Hosted the 2nd Annual TBCK Syndrome Awareness Day raised funds for research and support families impacted by TBCK Syndrome.

2

Awarded the Chan Zuckerberg Initiative's Rare As One Grant alongside 19 other rare disease foundations to help build capacity to expand TTF's work. Perhaps one of our biggest honors as a foundation so far!

3

Hosted TBCK Syndrome Virtual Mini-Conference featuring Children's Hospital of Philadelphia researchers, Dr. Bhoj + Dr. Ortiz-Gonzalez. Attendees from all over the world joined the Zoom meeting!

4

Hosted 3rd Annual Race For Rare Kids in Southwest Michigan, USA an awareness charity event celebrating all abilities and disabilities while fundraising for The TBCK Foundation.

5

Participated in our 2nd Annual Million Dollar Bike Ride, a matching grant program where we awarded \$50,400 to Dr. Gerald Downes of UMass Amherst for continued zebrafish research for TBCK syndrome.

2022 Big Plans Ahead

-  We are so honored to be a grant recipient of the Chan Zuckerberg Initiative Rare As One Program, meaning funding to expand our work, support research, and grow! www.chanzuckerberg.com/science/programs-resources/rare-as-one
-  Expand programming to include our Hospital Support Program for TBCK families while children are hospitalized and Zoom hang-outs for families, including siblings of TBCK warriors!
-  Host TBCK Syndrome Awareness Day on February 1st and host the 4th Annual Race For Rare Kids 5K on Lake Michigan, both fundraisers for The TBCK Foundation.
-  Continue to support TBCK research through funding raised through year-long efforts. We can only do what we do because of generous donations like yours!
-  Plan an in-person TBCK Conference + Family Gathering (Covid-safe pending) in Philadelphia in Fall 2022.
